## COV. ISSUES

## MESSAGE TO THE CHILDREN

Frankfort, Ky., Feb. 26.—In connection with an Arbor day proclamation in which he asks the people of Kentucky to fix upon Friday, April 2, as Arbor day for Kentucky, Governor Willson wrote a letter to the boys and girls of Kentucky in which he says:

"The governor sends his greetings and best wishes and a cheer, because you live in Kentucky; because you love Kentucky and Kentucky loves you; because you are real Americans and love your country and your country loves you; because you have schools and are going to have better ones, and because you are just boys and girls and intend to be and ought to be and I believe you are going to be good, true, earnest, faithful workmen and women, a comfort to all who know you, a blessing to all who love you, and always helpful, useful and earnest. Make all you can out of the schools; make more than you can out of yourselves; get all the good you can out of all the joys of today and use all the sense you can to get ready to have true joy and pleasure out of the days that are to come after.

"The world is using up all of its trees faster than trees are growing. The way to make this right is to plant more trees so that there will be more trees growing than the world is using. Sir Walter Scott made the Scotch Laird say: 'Stock in a tree here and there, Jock; it will be e'en growing while you're sleeping.' I wish every boy and girl in Kentucky would stick in at least one tree on Arbor day and make their plans to start even a little garden in the yard and in the school yard where there is room, and would join a society pledged not to hurt any bird or any dog or any animal or living thing; not to spoil gardens or flowers; not to throw pieces of paper or other rubbish in the road or in the street and to see how nice every boy and girl could look, and how nice they would have everything about them look all the time; to be neat in dress, sweet in manners, kind in acts and thoughtful in their ways with everybody whom they know; cheery and good at home and full of fun and spirit, of good cheer and kindness everywhere.

"I wish that in every school house the boys and girls would get up societies and have even the youngest talk about the gardens and the trees and the birds and the flowers and do everything they can themselves, and get their fathers and mothers and everybody who cares for them to do everything they can to make their part of the world so nice that everybody will be glad to see it, and people will want to have a chance to enjoy it.

"This letter is written to each boy and each girl, and the governor will be very happy to see every boy and girl, but if you cannot come to the governor, take this letter from him as his visit to you, and as his wish for everything good to come to you. With love to all.

"AUGUSTUS E. WILLSON,  
Governor of Kentucky."

A Slow But Powerful Revolution.

There need not be, however, the slightest doubt in the mind of any man that political, commercial and financial affairs in this country are in a state of transition, and that the machinery of the preceding centuries has become antiquated and obsolete, no longer responsive nor suited to the new and more potent forces of the present time, and must give place to forms and methods, to reforms and betterments, that the people, who after all are controllers of politics, commerce and finance, desire and will have. The age demands better results for the masses and insists upon the limitation of the power of the few in all political, commercial and financial affairs.—Cincinnati Enquirer.
